

FIELDS ACADEMY

ELEMENTARY MATH

EDUCATOR PROGRAM

FOCUS GROUPS

Who?

Math educators, math researchers, or those interested in contributing to mathematics education.

When?

The group will meet bi-weekly starting in mid-January until late-March (5 sessions). Schedule will be determined based on participant availability.

Where?

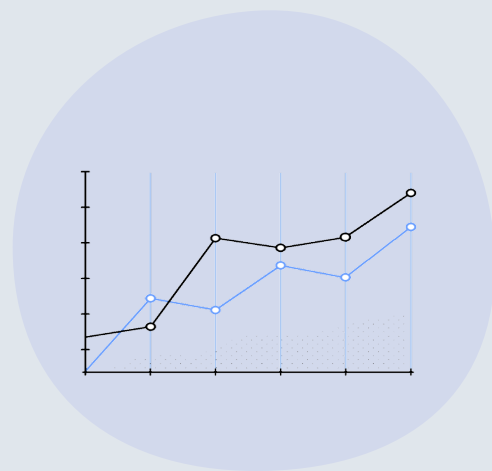

All content is provided online as a self-paced, asynchronous course, and meetings will take place online / virtually.

The **Elementary Math Educator Program** is designed to help elementary teachers and teacher candidates boost their math skills.

Program resources are developed by an Ontario certified teacher with a PhD in Mathematics Education, and in collaboration with math researchers and educators from across Canada.

Our **Focus Groups** aim to bring together those interested in helping us improve these resources.

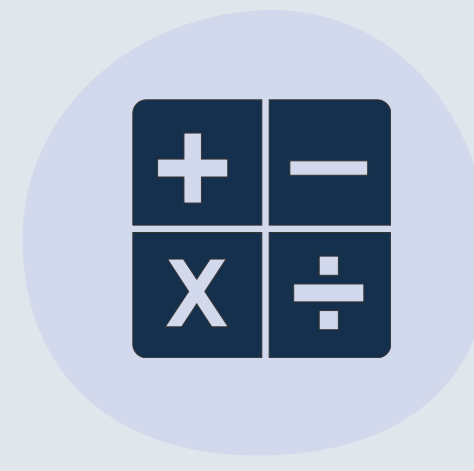

COURSES TO CHOOSE FROM

Mathematical Modelling

Financial Literacy

Operations and Fractions
